Deadline – 1st December, 2018

Special Attractions - Language Arts Festival & E Village

Got talent? Learning English? What happens when students and faculty from across Kuwait's schools and universities, both government and private, cross paths on stage? In its 2nd annual event, REALL Special Interest Group will showcase English language skills as it celebrates talent in the performing arts. Highlighting original plays, poetry, songs, and choreography, this year's festival will feature faculty talent, too. Join us at the REALL Language Arts Festival in TESOL Kuwait's Conference. See students – and teachers -- shine! It's language...alive!

Call for proposals – Please contact Ms. Alison Koushki at
reallsigchair@tesolkuwait.net
for more information

Deadline date – 1st of December, 2018

Electronic Village (EV)

The Electronic Village (EV) enables you to explore computer and technology-based applications and resources for English language teaching and learning. The aim is to provide for the audience a Venue where they can come and showcase their work during TESOL Kuwait 2018 Conference. The EV offers multiple presentation sections and themes related only to technology. You can ask them questions, get hands-on experience, and learn how your colleagues use the online materials and the latest technologies

To submit proposals for E Village
